

Mentoring School Administrators

My name is Dr. Christian Klaue and I am currently the high school vice principal of Regent Christian Academy in Surrey, BC. I am in my 28th year of Christian school administration. I know that when I started as a Christian school principal, there were many things that I did not know. It would have been wonderful to have a mentor or maybe, in my case, a book, that provided information and answers to my questions (something like having a toolbox with the correct tool for the situation). This session is geared towards new principals (or even experienced principals) who are looking for general advice on specific topics.

My plan is to offer a once-a-month session for the ten months of the school year. Each session will start off with approximately 20 minutes of information on a topic that I wish I had information on as a new principal followed by 40 minutes (or so) of questions and answers around that topic. I have 22 topics already lined up, and they will be cycled through over the course of 2+ years. These topics are not sequential; if you are interested in a topic, show up. If you are not interested, look at the following month's topic and see if you want to join the next discussion. My goal is to facilitate a conversation and share ideas around the specified topics.
