Virtual Conference via ZOOM

JULY 7–10, 2020

COURSE 1: [Teacher Stream] BIBLICAL WORLDVIEW INTEGRATION: CREATING THE CHRIST-SATURATED CLASSROOM

The most effective Christian school classroom will demonstrate every day, in all areas of classroom activity, that Jesus is the one who holds all things together and makes all knowledge connected and meaningful.

COURSE 2: [Administrator Stream] RESILIENT, FUTURE READY LEADERSHIP

There is an Educational Leadership crisis developing according to recent data. Too few teachers are embracing leadership opportunities. The reasons for this are not clear yet, but the growing complex challenges of leading schools is surely one of the reasons. Leaders today need to be resilient but not enough is being done to develop the skills and knowledge necessary for resilience. In this year’s institute the focus will be on helping both current and emerging school leaders to increase their passion and perseverance as school leaders. In these challenging days leaders with the right knowledge and skills will be able to tackle present and future challenges and continue to lead flourishing Christian school communities.
