WOMEN IN LEADERSHIP

Women in Leadership (and those wanting to take the plunge)

Hey, let's get together and talk about being women in leadership. What are your challenges? What are your successes and victories? How can we support one another? It's likely we have a common voice in our struggles as female leaders, and very likely as Christian female leaders.

My name is Karen Daniels, I am the principal of Lighthouse Christian Academy in Victoria and a board member of ACSIWC. I have a background in education, business, and am an unofficial life coach (so I am told). Join me on this journey to share and learn how we can work together in a sisterhood of leaders and those planning to enter leadership.
